When it's over "over there," G. I. Joe will come home to a wave of gratitude such as this country never saw. And he's

But gratitude won't buy groceries-G. I. Joe wants to go to work. He's got to have a job—and a chance to grow into still better jobs. We are going to

do our part in the great task of providing these opportunities. The day after Pearl Harbor, Esso Marketers adopted a plan of wartime benefits and job protection for our people in uniform. We published its main points here recently. We now want to tell you about two plans for taking returning servicemen into our organization. Here are their main points.

PLAN QNE covers our own employees as they come

2. Review of changes in the man and in the business since he went away to be sure he gets the best job for

1. Assurance to each man of his old job or another as

3. Recognition of the development of men during the

4. Provisions in the case of a man not physically up to manently as soon as possible.

PLAN TWO aims to take as many new people as possible from the armed services into our business. Post-war petroleum will need more people. Wartime experience will equip many men for this business. Here is our plan

1. Careful analysis of the man's abilities as they can best fit our business on the basis of a real career for him. 2. Special training with pay to prepare the man for prompt assignment to a definite job on a regular basis. war, by providing better jobs than they left, either at once 3. This also means full participation in old-age pen sion, disability, savings plan, and other individual job-

security benefits which our employees share. his old job for finding one he can do, temporarily or peradvancement on a basis of proved ability.

ADKINS IS RESPONSIBLE

for Debauching the Democratic

At the meeting of the Democratic State Central Committee held in Little Rock on July 8, Honorable Charles T. Coleman, legal advisor to the Committee and, in many instances during the Adkins Administration, legal advisor to the Governor, stated to the Committee that if the Legislature were to amend our Brundidge Primary Law by adding to it three short lines proposed by him, negroes could be legally and constitutionally excluded from membership in our Democratic Party and from voting in our Democratic primary.

Since the beginning of this campaign, T. H. Barton has demanded daily that the Governor call a special session of the Legislature to amend our Primary laws so that negroes might be excluded from the activities of our party.

Such a special session can be held on as little as three days' notice, and with proper leadership in the Governor's office these three short lines proposed by Mr. Coleman could be added to our Primary laws in less than one day.

The Governor of our state has, for his own political purposes, seen fit not to adopt this simple, legal and direct method of keeping our Democratic Party a white man's party.

His failure to act has forced the Democratic Central Committee to adopt amendments to the Rules of our Democratic Party which permit negroes to become members of our party.

The responsibility for the destruction of the white Democratic Party in Arkansas lies at the door of the Governor in the State Capitol of our great southern

Barlon is the ONLY candidate who has faced this question squarely. Governor Adkins has flinched and avoided his responsibility.

for Debauching the Democratic

At the meeting of the Democratic State Central Committee held in Little Rock on July 8, Honorable Charles T. Coleman, legal advisor to the Committee and, in many instances during the Adkins Administration, legal advisor to the Governor, stated to the Committee that if the Legislature were to amend our Brundidge Primary Law by adding to it three short lines proposed by him, negroes could be legally and constitutionally excluded from membership in our Democratic Party and from voting in our Democratic primary.

Since the beginning of this campaign, T. H. Barton has demanded daily that the Governor call a special session of the Legislature to amend our Primary laws so that negroes might be excluded from the activities of our party.

Such a special session can be held on as little as three days' notice, and with proper leadership in the Governor's office these three short lines proposed by Mr. Coleman could be added to our Primary laws in less than one day.

The Governor of our state has, for his own political purposes, seen fit not to adopt this simple, legal and direct method of keeping our Democratic Party a white man's party.

His failure to act has forced the Democratic Central Committee to adopt amendments to the Rules of our Democratic Party which permit negroes to become members of our party.

The responsibility for the destruction of the white Democratic Party in Arkansas lies at the door of the Governor in the State Capitol of our great southern
